

Heliar Diver

This course provides the training and experience you need to competently plan and execute extended range dives that require stage decompression utilizing Heliar and EANx and/or oxygen. You'll learn the hazards and proper use of Heliar for dives to maximum of 180 fsw / 55 msw that require stage decompression, utilizing EANx mixtures and/or oxygen during decompression.

To enroll, you must be 18 years of age; have logged at least 75 dives, (10 of which must be decompression dives in the environment in which the course is being taught); be certified as a NAUI Technical EANx Diver, Decompression Techniques Diver, and NAUI Helitrox Diver.
