

Technical EANx (Nitrox) Diver

This course will provide you with the skills and knowledge needed to minimize the risks of utilizing optimal breathing gas EANx mixtures of 25% through 80% (oxygen) for dives to a depth of 150 fsw / 46 msw not requiring stage decompression, using 80% EANx for decompression and 25% to 60% EANx for bottom mix.

You'll need to be 18 and have a minimum certification of NAUI EANx Diver and Deep Diver (or equivalent) and 50 logged dives with 10 dives on EANx to enroll in the Technical EANx Diver course.
