

## Technical Wreck Penetration Diver

This course is designed to provide the diver with the skills and knowledge needed to gain experience and minimize risks in penetration wreck diving at depths beyond 130 fsw / 40 msw.

In this intensive and interesting course you'll learn to plan and execute penetration wreck dives that require stage decompression and utilize air and EANx and/or oxygen for stage decompression, with dive plans less than 165 fsw / 50 msw.

*To enroll, you must be at least 18, logged 50 dives, have a minimum certification as a Penetration Wreck Diver with at least 10 logged penetration wreck dives, and certification in Technical NAUI EANx and Decompression Techniques.*
